*An initiative of the  
European Commission*

## Lahti - Sustainable Destination

We inspire people by sharing the best Nordic sustainable solutions for everyone to use. The Lahti model enables all towns and cities, from the smallest to largest, to grow into genuine green cities.

To help the tourism industry in Finland to adopt sustainable practices, Visit Finland has developed the Sustainable Travel Finland programme. The programme is designed for Finnish tourism companies and destinations to develop more sustainable practices.

The participants that have undergone the STF programme and fulfilled the criteria, get the Sustainable Travel Finland label. So, when you spot a destination or a company that has the Sustainable Travel Finland label, you know they take sustainability seriously. The companies and destinations will also be audited regularly.

# Location & Access

Lahti is situated 50 minutes from the international Helsinki Airport with good flight connections from all over the world.

LAHTI

Visit  
**Lahti**

A group of people are gathered around a table in a restaurant, clinking champagne glasses. The scene is warmly lit, with a woman in a yellow top smiling in the background. The glasses are filled with champagne, and the overall atmosphere is celebratory.

# Welcome to Lahti, Finland – the most sustainable and equal FIM convention ever!
